

II. International ''PathArt 2018'' Photomicrography Contest

This year we are making a tradition and organizing the second "PathArt" photo contest that is composed of microscopic histopathological images which we have organized for the first time last year and which have had a great popularity and appreciation in both national and pathological world.

We are inviting everyone to participate in the contest and waiting for your photographs which will all be exhibited during the 28th Turkish National Pathology Congress where the winners will be awarded.

I. Purpose

To perceive aesthetic, artistic and intellectual dimension from functional dimension of diagnostic histopathological images and to reveal science-art relation through histopathologic images.

II. PathArt Photo Contest Participation Conditions

- 1- Participation in the contest is free.
- 2- The contest is for all amateur and professional photographers.
- 3- The basis of the work must be based on the principle that the photographs picked and interpreted from microscopic photographs belonging to the field of pathology carrying the aesthetic and artistic reflections.
- 4- Any technical and artistic interpretation can be performed in the photos **with the condition of histopathologic appearance being able to be seen.** However, interferences that change the nature of the photo are unacceptable.
- 5- The photos should be color digital and in JPG format, have a minimum of 72-300 dpi resolution and 2 MB file size.

- 6- The images from professional microscope cameras or mobile phone cameras will be accepted.
- 7- Photos that do not have sufficient resolution for display and printing will not be taken into evaluation.
- 8- Every contestant can participate with a maximum of 3 photos.
- 9- The photos should not have any information regarding the contestant's name, logo, etc. on them.
- 10-The photos should be labeled with a **nickname** and number i.e. Mary-1 Mary-2..
- 11- Members of 'The Photograph Evaluation Board' and their first degree relatives can not participate in the contest.
- 12-The contestant acknowledges, declares and undertakes that the participating photographs are all their own.
- 13-The contestants who try to make an artwork seem like its theirs even though it belongs to someone else or who perform intervention and amendment to mislead the evaluation board on the photos that they send to the contest will be excluded from the contest.

III. Delivery:

- 1- The deadline is **31 August 2018**.
- 2- The photographs should be sent to pathart2018@gmail.com in one e-mail in digital format.

IV. Jury Members and Evaluation

- 1- The photos will be evaluated and rated by the "PathArt" jury that was created by the Turkish Federation of Pathology Societies.
- 2- The photographs participating in the contest will be published **by the jury** on social media platforms without the photographer's name and the

national and international liking status will be determined and the results will be taken into consideration during the award evaluation before the final jury decisions.

- 3- **The photographs participating in the contest can not be shared on platforms such as social media by the participant and submitted for evaluation.**
- 4- The awards will be given out to first three photographs. The selected photos will be placed on the cover page of an issue of "Turkish Journal of Pathology" and on the web page of the Federation with the names of the winners.
- 5- The exhibition of the awarded artwork will firstly take part in our national congress in a specific time period reserved for "PathArt". The awards will be given out during the congress.
- 6- The contestant agrees that the publishing copyright of the artwork along with the owner is transferred to the Turkish Federation of Pathology Societies after participation.
- 7- **Jury members;** Alp USUBUTUN, Dr. Eylul GUN, Dr. Hatice OLGER UZUNER, H. Irmak SOLDAMLI (Cytotechnologist - Photographer), Dr. Ilkay CINAR, Dr. Pembe OLTULU, Dr. Sultan CALISKAN, Dr. Sirin KUCUK, Dr. Umut AYKUTLU, Dr. Umit COBANOGLU.

V. Benefits

With the PathArt Photo contest, the participant interprets their functional histopathological slides in terms of photographic art. The routine related to pathology is abstracted through art from challenging working conditions and develops creativity and awareness. It contributes to recognition and recognition of the pathologist and pathology as an occupation at the social level.
